Raw and savage with a dark and progressive edge; this is just the beginning of what you will discover within the many facets of Cruel Humanity.

Kerrang! Magazine have already described the album as a "Stunning debut from UK black metal's new heroes".

Cruel Humanity have also appeared live supporting Nightwish at the prestigious Bloodstock festival, as well as touring the UK with Old Man's Child and Einherjer. Most recently they received excellent reviews in the major press for their sterling appearance at the first ever UK all day Black Metal festival supporting HellBorn (featuring Behemoth members).

"Cruel Humanity's blackened thrash shreds and slashes like a rusty, serrated blade thrust into your face"

KERRANG! MAGAZINE - 4/5

Cruel Humanity featured highly in last year's readers polls for "Best unsigned band" in both TERRORIZER MAGAZINE & POWERPLAY MAGAZINE

Cruel Humanity truly are the masters of future darkness!
